# PART 1: INTRODUCTION

## 1. PURPOSE OF THIS MAPPING

In recent decades, along with the fast-paced development of digitalization and web-based solutions, China experiences an increasing demand for innovative technology and young talents in Computer Science (CS). Over the past 20 years, China has invested heavily in building academic and innovation strength in this area, including higher education, scientific research output and construction of state key laboratory. By the end of 2021, China ranked first globally when looking at the citations of publications in computer science.

This report aims to provide an overview of China's top institutions and authors in Computer Science. We also looked into the undergraduate and master study in computer science in China to provide an initial profile of people who successfully enter this area in China's first-tier institutions. We hope that this report can help map the Chinese landscape within Computer Science.

## 2. DATA SOURCE

We use Scopus as the bibliographic database for publications in computer science. We chose the publications, which has affiliations with China and rank the institutions and main authors by the number of publications from 2017 to 2022. Over 686,654 publications are covered in this report.

For the 2021 graduate school admission rate, the data source is the public documents on the official sites of the graduate school of universities. When calculating the student recruitment number, the Master's Program Catalogue is limited to 0812 (Computer Science and Technology) on the official website of *China Graduate Student Recruitment Information*.

## 3. DEFINITION AND METHODS

### 3.1 TYPE OF UNIVERSITY IN CHINA

To display student data more effectively, we firstly categorized the students by the type of their university. There are four main kinds of university in China. Universities that are included in the 985-project and 211-project are usually considered as the key universities in China.

#### **985-project University**

Project 985 is the project started in 1995, through which China aimed to establish a list of universities for world-class international research. There are 39 universities included in the 985-project in China.

#### **211-project University**

It is the largest and highest-level construction project in the field of higher education since the founding of New China. There are 115 universities included in the 211-project in China. Different from 985-project university, 211-project university is usually strong in certain discipline.

#### **Other University**

Universities which are not included in 985-project or 211-project are recognized as other normal universities. The difficulty of entering of this kind of normal universities in China is lower than 985 and 211 universities but higher than entering a college.

### **Military University/Research Institution**

Different from normal university, military universities are usually funded by country's defense spending in China. There have been more recruitment requirements on student's health and physical capability and the management style would be militarized.

In China, some research institutions like Chinese Academy of Sciences (CAS), Chinese Academy of Social Sciences (CASS) also have the access to recruit graduate school students, but the scale of recruitment is generally small and the research direction is usually fixed.

### **3.2 SUB-AREAS OF COMPUTER SCIENCE**

In this report, we separate computer science into eight sub-areas to differentiate each university's strength and focus. They are **Algorithms and Data Structures, Computer Architecture, Software Engineering and Programming, Artificial Intelligence and Robotics, Database and Information Technology, Human-Computer Interaction, Security and Information Assurance, Networking and Communication.**

We chose these eight sub-areas since each has its own direction of development, and the undergraduate students usually have to choose one as their main development direction after the first year when they enter the university.

## **4. OVERVIEW OF THE REPORT**

**Part 2** presents the overview of student recruitment of China's higher education in computer science. The total volume of undergraduate students has been increasing steadily year by year, meanwhile students from 985 and 211 project universities keep at around 5% of the total undergraduate students. For graduate student, the admission rate of computer science appears rather low for some representative 985-project universities.

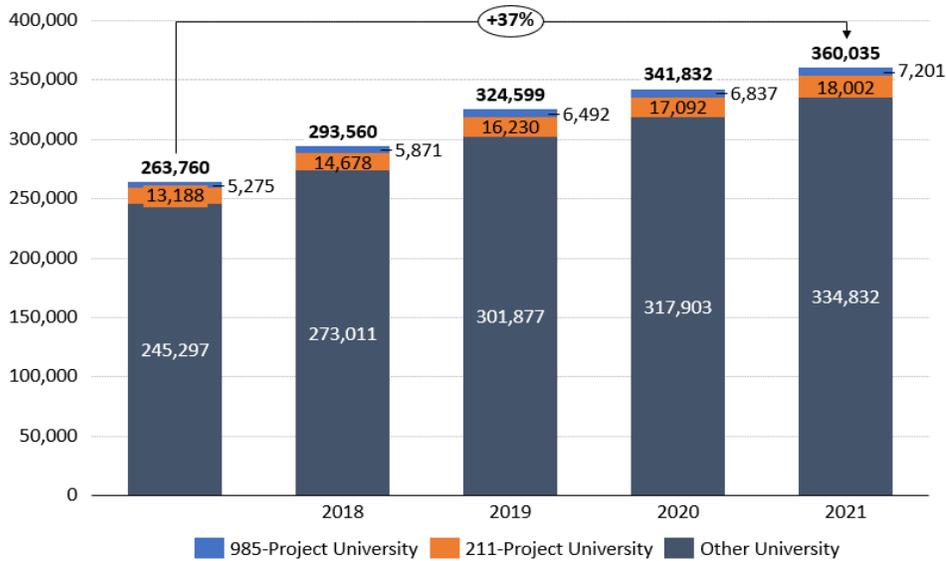

**Part 3** presents the top 15 institutions in 8 sub-areas in computer science, ranked by publications indexed in Scopus from 2017 to 2022.

- Tsing Hua University, Shanghai Jiaotong University, Zhejiang University, University of Electronic Science and Technology of China, Harbin Institute of Technology and Beihang University rank in top 15 in all the sub-areas in computer science
- Chinese Academy of Sciences (Research institution) and University of Chinese Academy of Sciences (Affiliated university) both appear as top 5 institutions in nearly all the sub-areas
- Two 211-project universities: Beijing University of Post and Telecommunications and Xidian University, show strong capacity in internet security and communications sub-areas. Beijing University of Post and Telecommunications also shows strengths in programming and database & information technology.

**Part 4** presents the top 15 authors with Chinese affiliations in 8 sub-areas in computer science, ranked by number of publications and number of citations from 2017 to 2022. Most of the main authors are from the top 15 institutions in Part 3, except for some authors who have changed their affiliations to technology companies.

# PART 2: OVERVIEW OF CHINA'S HIGHER EDUCATION IN COMPUTER SCIENCE

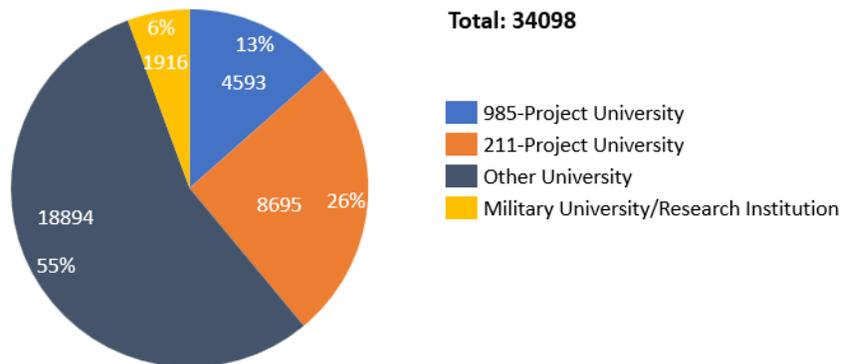

## 1. UNDERGRADUATE STUDENTS RECRUITMENT IN COMPUTER SCIENCE

From 2017 to 2021, the number of undergraduate computer science students in China has increased 36.5%. In 2021, the computer science undergraduate students number reached 0.36 million. Percentage of 985 and 211 university students keep around 2% and 5% of the total. In 2021, 985 and 211 university recruited about 25202 students in Computer Science.

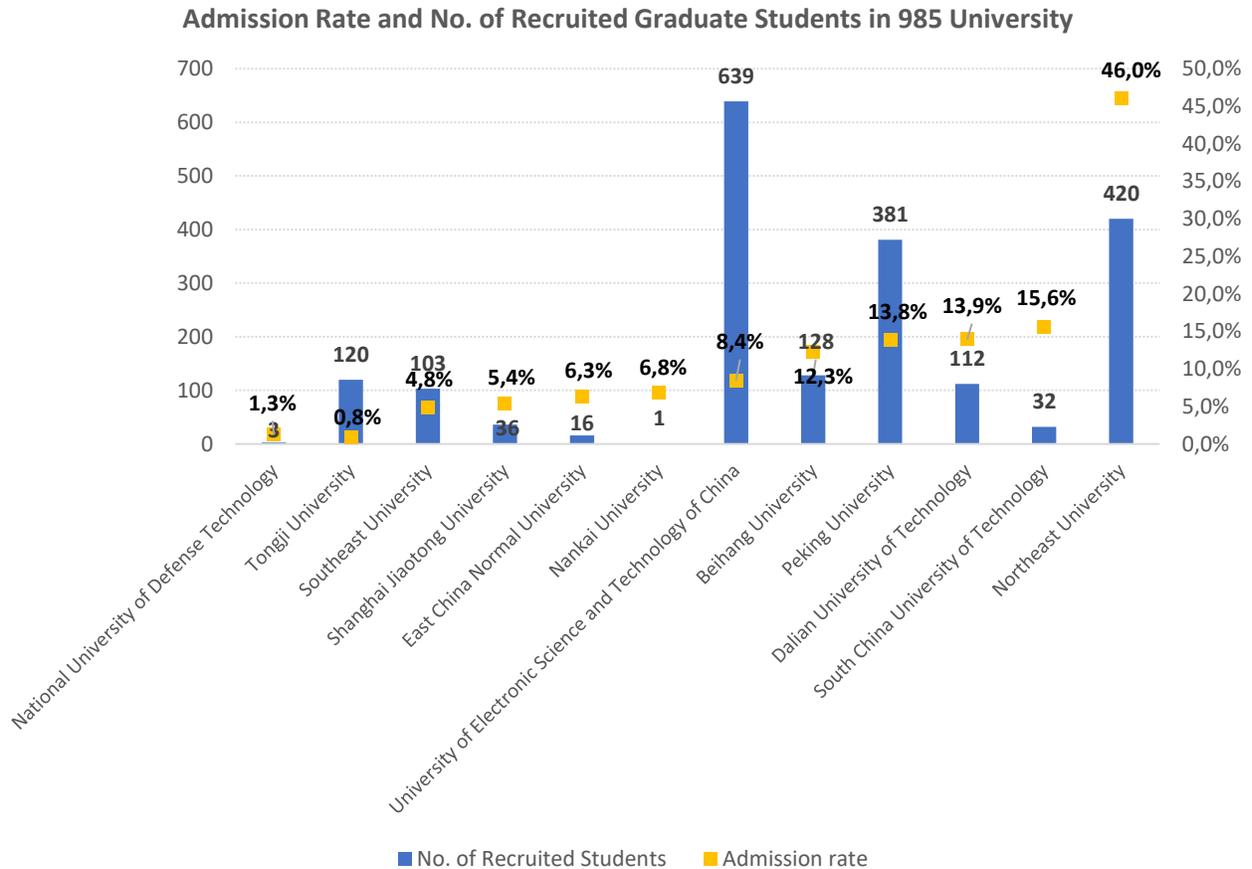

## 2. 2021 GRADUATE STUDENTS RECRUITMENT IN COMPUTER SCIENCE

2021 Number of Student Recruited by Unified National Examination

In 2021, there were over 34,000 students are recruited by graduate school in 985, 211 project universities, other universities, military universities and research institutions through China’s national unified examination. 985, 211 project universities’ graduate students take about 39% of the total graduate students recruited in Computer Science major, which is a much larger proportion compared to their proportion in the undergraduate student (7%).

### 3. ADMISSION RATE OF TWELVE 985-PROJECT UNIVERSITIES IN COMPUTER SCIENCE

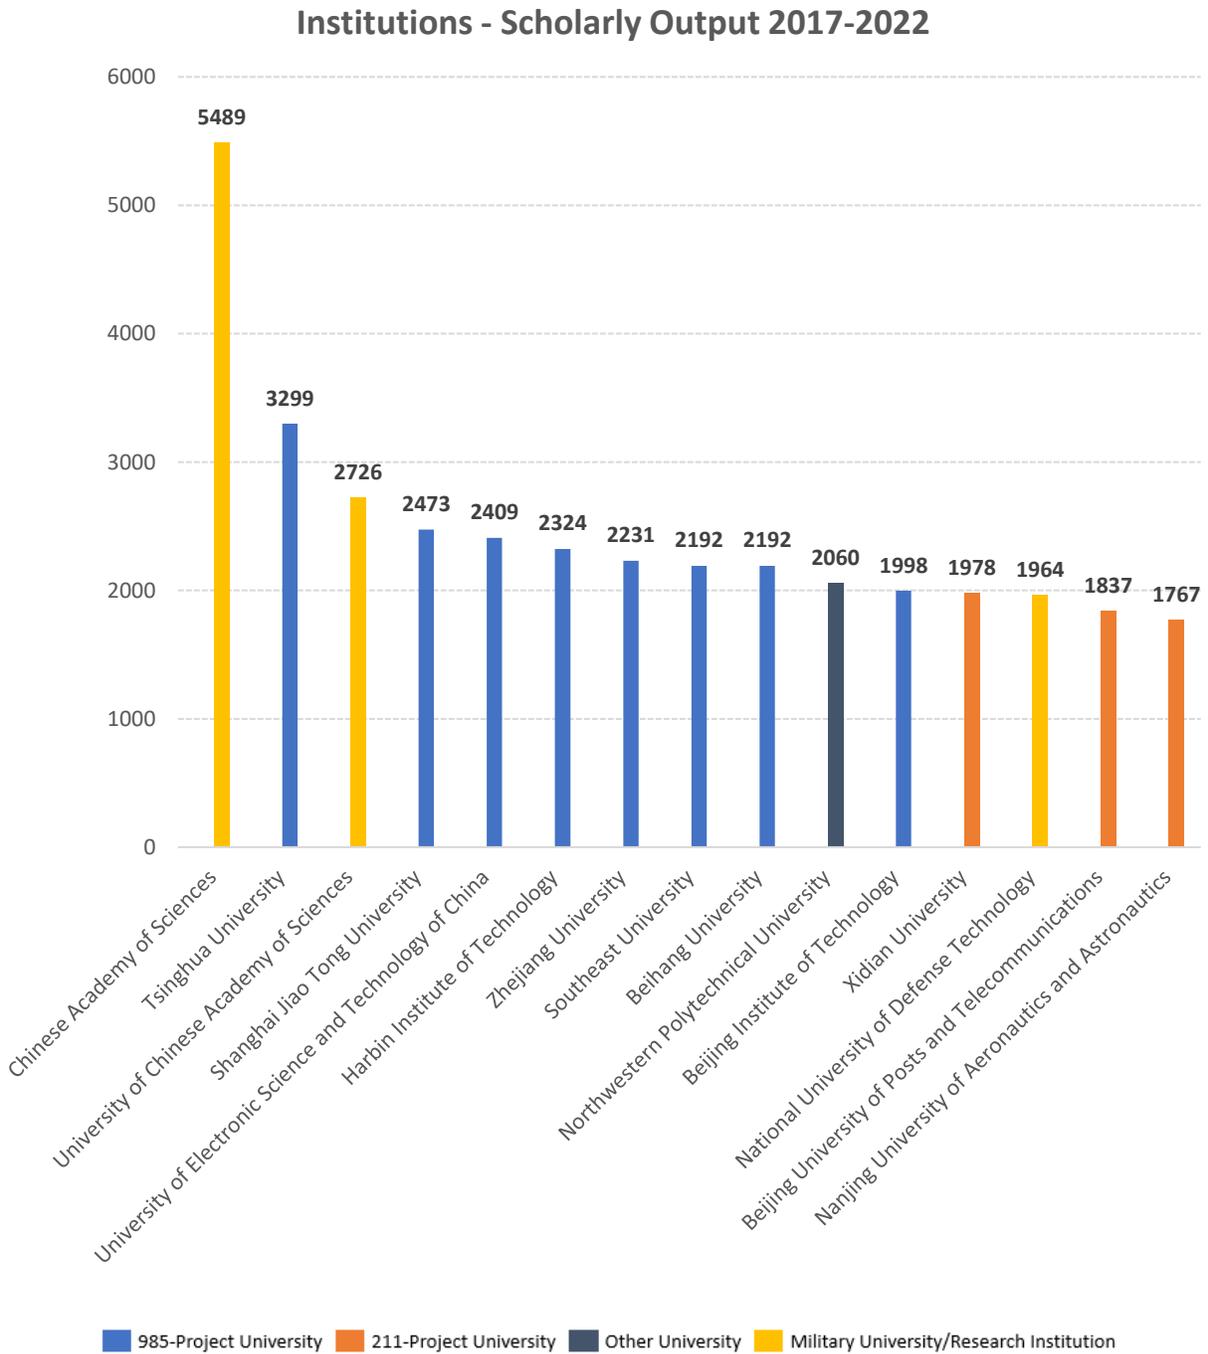

To look into the difficulty in entering the 985-project universities’ graduate school of computer science, we analyzed the 2021 admission rate of twelve 985-project universities’ Computer Science department. The admission rate of the other twenty-seven 985-project universities is not available on the official site.

For some well-known 985-project universities like Shanghai Jiaotong University, Tongji University, they have extremely high thresholds for Computer Science graduate students and the rate of admission is less than 6%. Particularly, for military university like National University of Defense Technology, they have relatively stricter recruitment requirements despite examination score. Among these twelve 985-project universities, Northeast University has an outstanding high admission rate of computer science student, which is up to 46%.

# PART 3: INSTITUTIONS

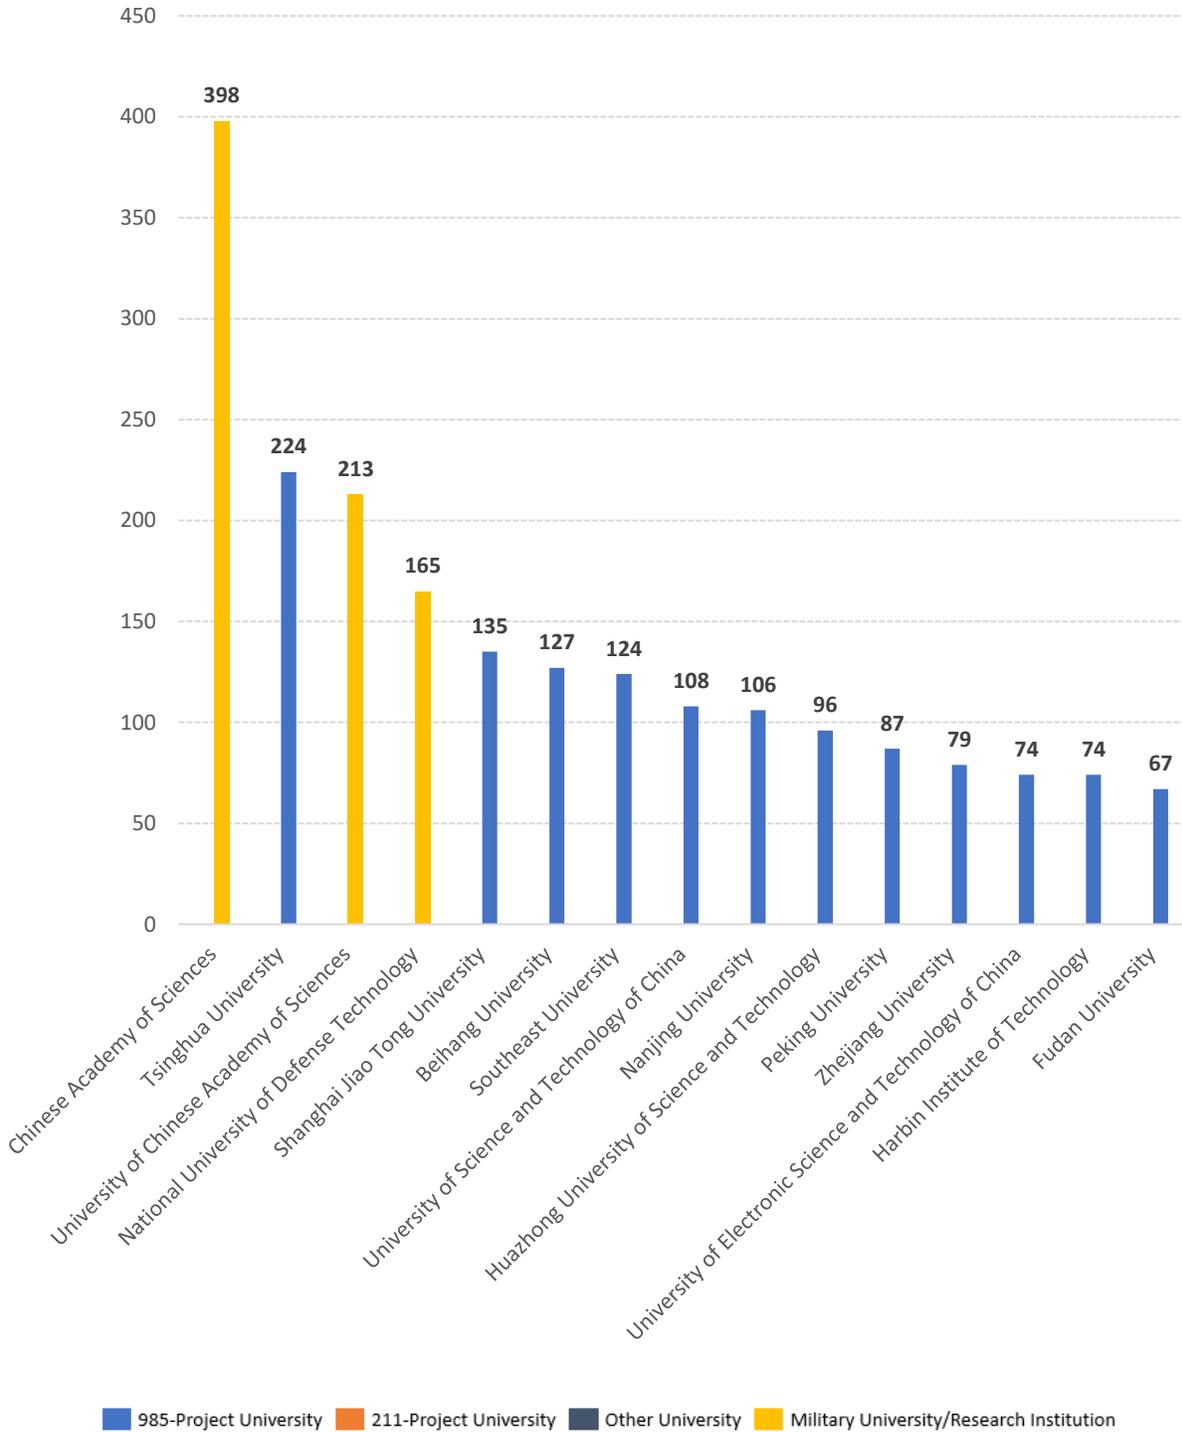

## TOP INSTITUTIONS IN TERMS OF SCHOLARLY OUTPUT 2017-2022

### 3.1 ALGORITHMS AND DATA STRUCTURES

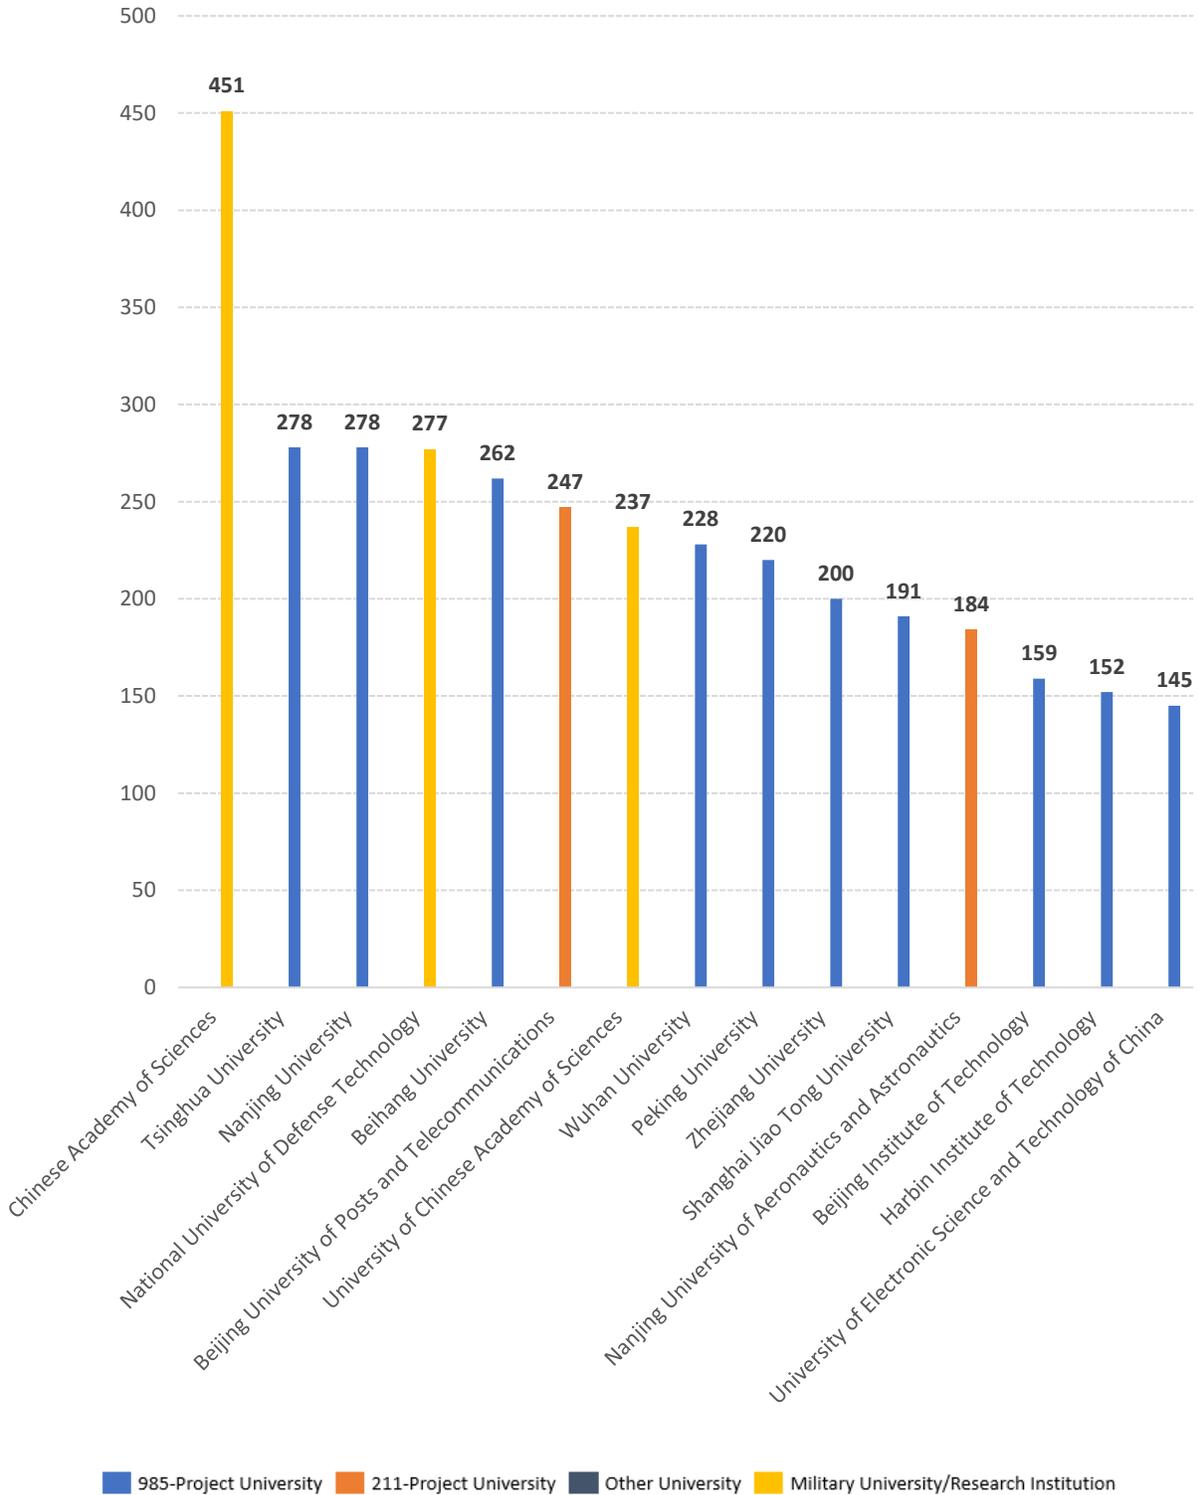

### 3.2 COMPUTER ARCHITECTURE

#### Institutions - Scholarly Output 2017-2022

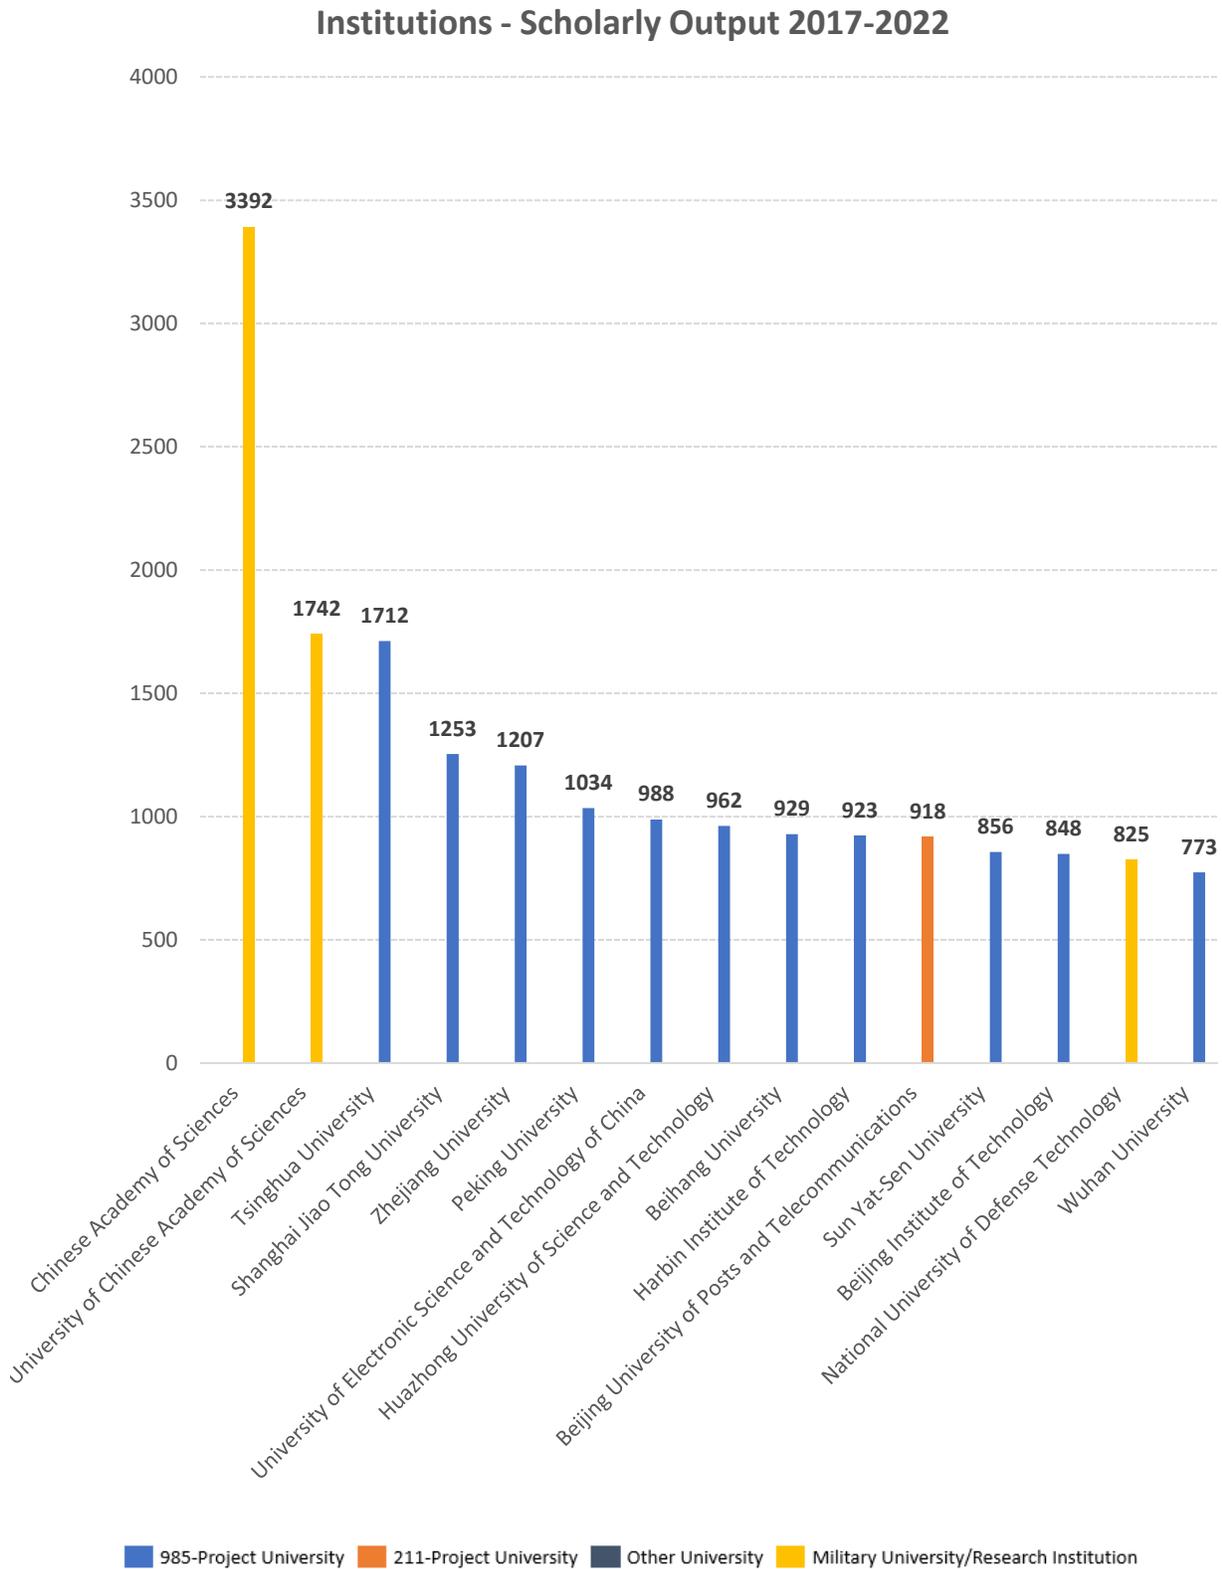

### 3.3 SOFTWARE ENGINEERING & PROGRAMMING

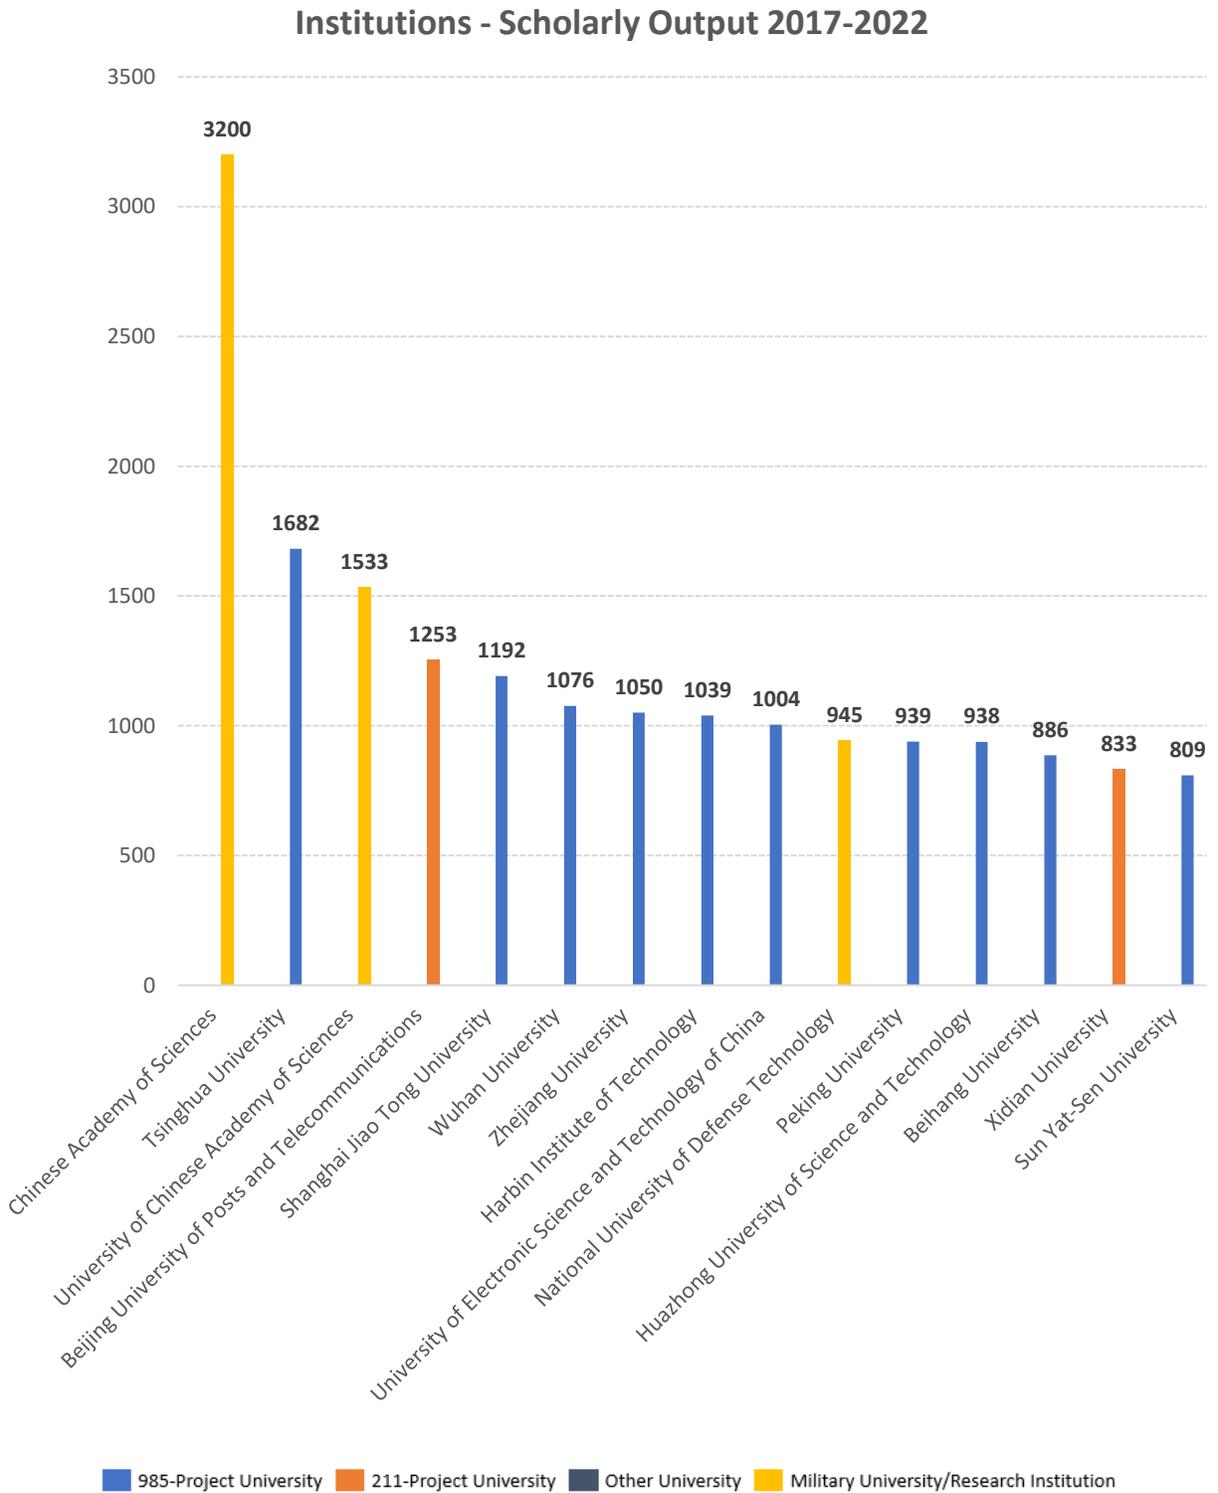

#### Institutions - Scholarly Output 2017-2022

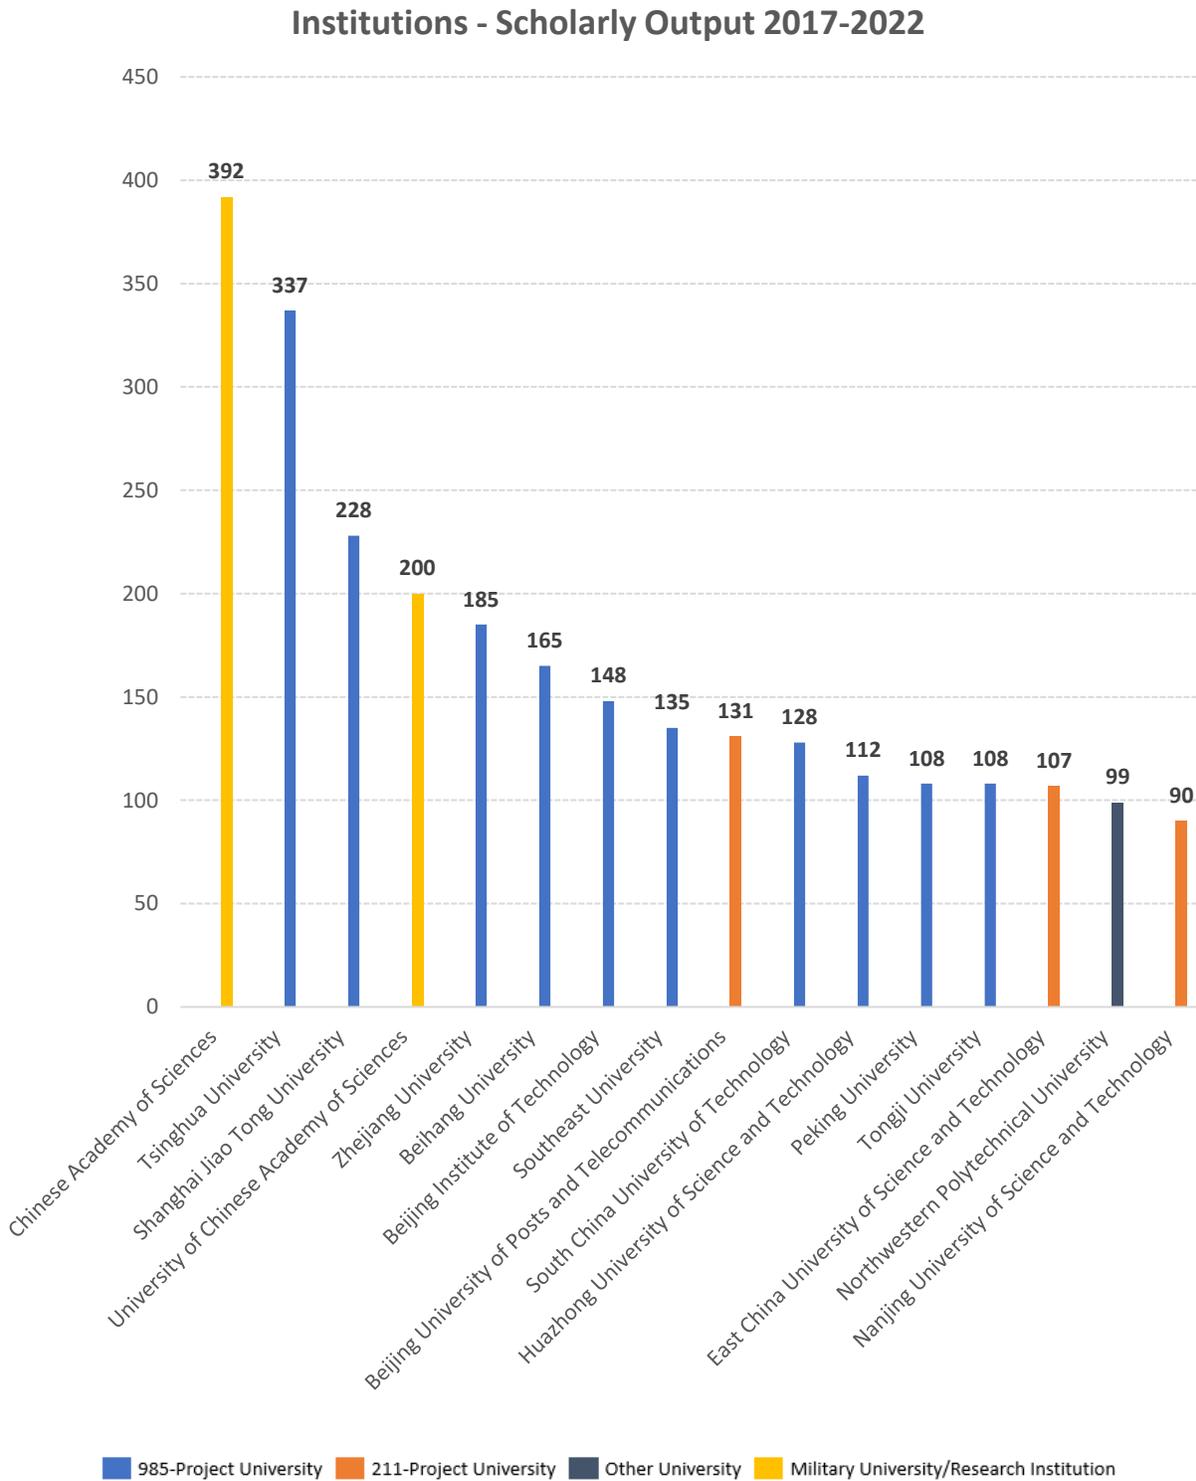

### 3.4 ARTIFICIAL INTELLIGENCE AND ROBOTICS

### 3.5 DATABASE AND INFORMATION TECHNOLOGY

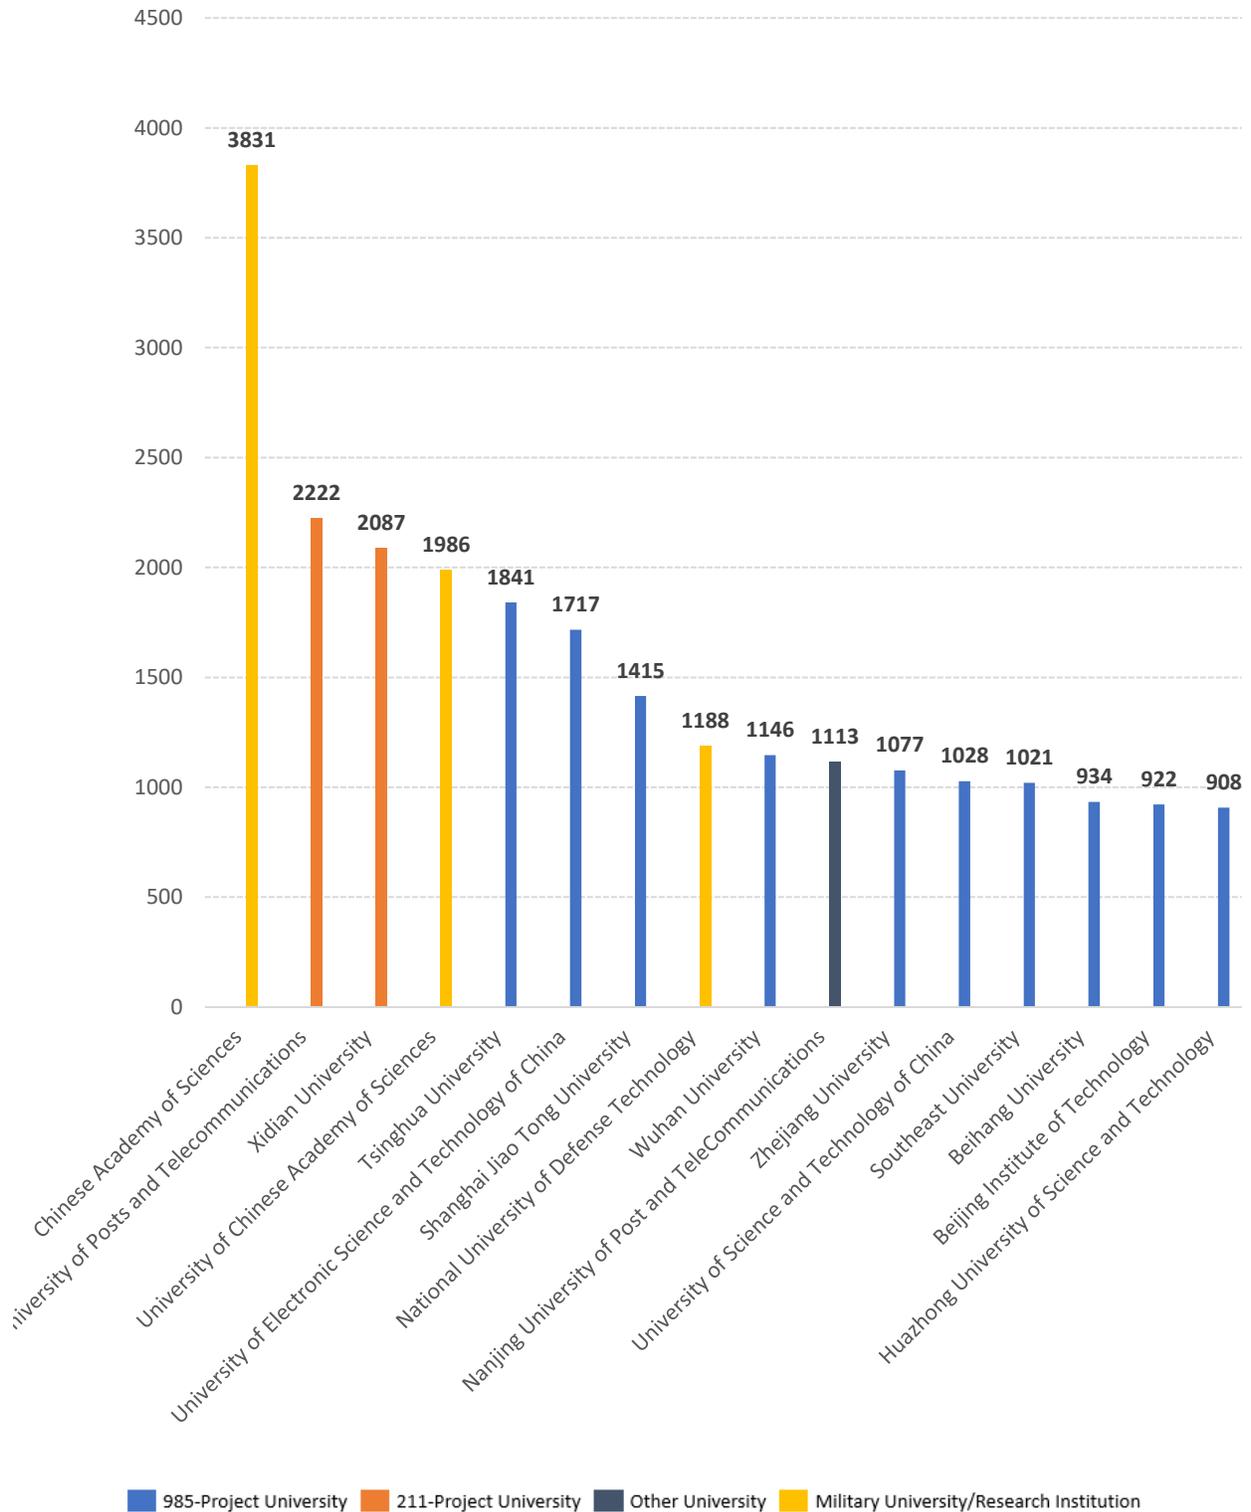

### 3.6 HUMAN-COMPUTER INTERACTION

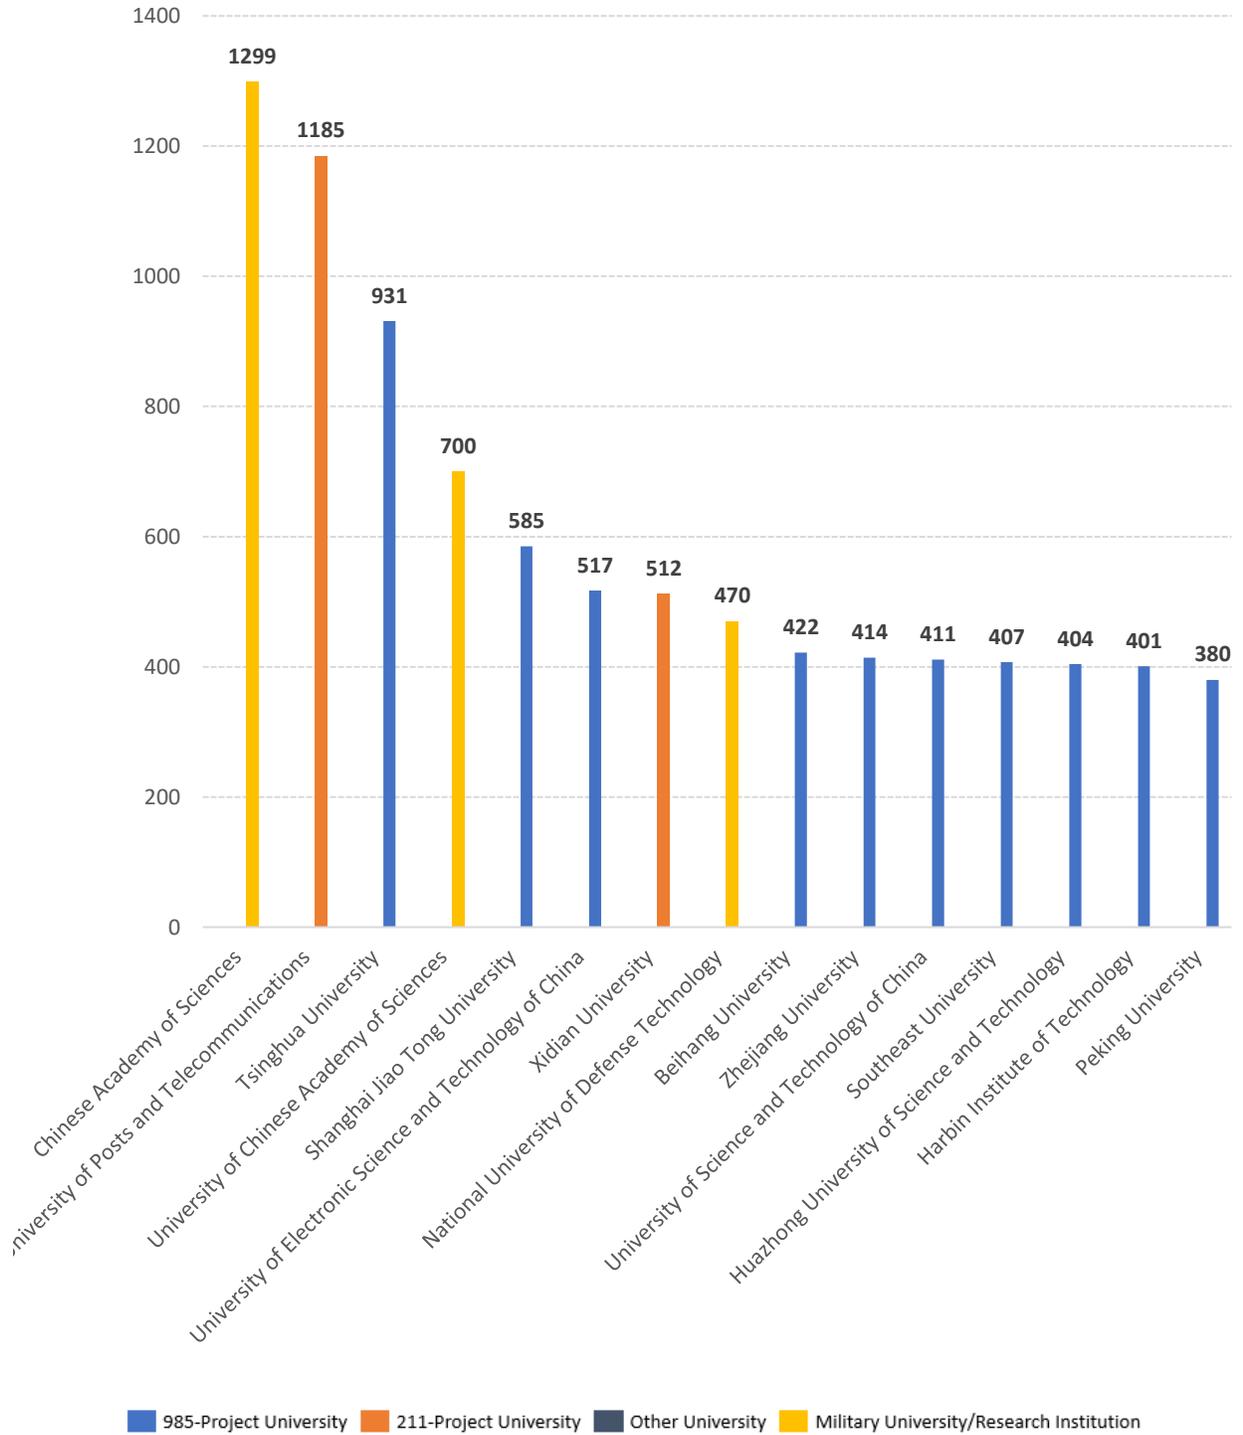

### 3.7 SECURITY AND INFORMATION ASSURANCE

#### Institutions - Scholarly Output 2017-2022

### 3.8 NETWORKING AND COMMUNICATION

#### Institutions -Scholarly Output 2017-2022

# PART 4: MAIN AUTHORS

## CHINA'S TOP 15 MAIN AUTHORS RANKED BY NO. OF PUBLICATIONS IN 2017-2022

### 4.1 ALGORITHMS AND DATA STRUCTURES

No.	Author	Current Affiliation (Scopus)	2017-2022 Documents by author (Scopus)	Cited by Documents (Scopus)
1	Han, Zhu	East China University of Political Science and Law	836	29302
2	Leung, Victor C.M.	Shenzhen University	545	27072
3	Gao, Liang	Huazhong University of Science and Technology	544	11581
4	Zhang, Huaguang	Northeastern University	544	15782
5	Jin, Hai	Huazhong University of Science and Technology	524	13511
6	Jin, Shi	Southeast University	380	9755
7	Chen, Guihai	Shanghai Jiao Tong University	345	8516
8	Wang, Zidong	Shandong University of Science and Technology	282	22348
9	Song, Lingyang	Peking University	240	9528
10	Zhang, Zhaoyang	Zhejiang University	231	6193
11	Huang, Yongming	Southeast University	223	5145
12	Cui, Guolong	University of Electronic Science and Technology of China	212	2075
13	He, Zishu	University of Electronic Science and Technology of China	191	2381
14	Yang, Luxi	Southeast University	178	3953
15	Wei, Qinglai	Chinese Academy of Sciences	158	3585

### 4.2 COMPUTER ARCHITECTURE

No.	Author	Current Affiliation (Scopus)	2017-2022 Documents by author (Scopus)	Cited by Documents (Scopus)
-----	--------	---------------------------------	---	-----------------------------------

1	Zhao, Weisheng	Beihang University	302	5439
2	You, Xiaohu	Southeast University	256	8249
3	Yang, Huazhong	Tsinghua University	238	6130
4	Liu, Leibo	Tsinghua University	186	2480
5	Wang, Zhongfeng	Nanjing University	182	2120
6	Wei, Shaojun	Tsinghua University	178	2092
7	Zhang, Chuan	Southeast University	177	1363
8	Xie, Yuan	Alibaba DAMO Academy	171	10474
9	Yin, Shouyi	Tsinghua University	161	2028
10	Zhang, Zaichen	Southeast University	115	1862

14	Niu, Xinyu	Shenzhen Corerain Technologies Co., Ltd.	33	460
15	Fan, Hongxiang	Shenzhen Corerain Technologies Co., Ltd./Tianjin University	27	130

#### 4.3 SOFTWARE ENGINEERING & PROGRAMMING

No.	Author	Current Affiliation (Scopus)	2017-2022 Documents by author (Scopus)	Cited by Documents (Scopus)
1	Lo, David	Zhejiang University	259	6857
2	Liu, Yang	Zhejiang Sci-Tech University	219	2682
3	Xia, Xin	Zhejiang University	188	3074
4	Jin, Zhi	Peking University	135	4306
5	Wang, Tao	National University of Defense Technology	110	5431
6	Xing, Zhengchang	Zhejiang University	102	2197
7	Chen, Xiang	Nanjing University of Aeronautics and Astronautics	92	891
8	Akbar, Muhammad Azeem	Nanjing University of Aeronautics and Astronautics/LUT University	79	389
9	Liang, Peng	Wuhan University	67	1286
10	Wang, Qing	Chinese Academy of Sciences	67	2136
11	Peng, Xin	Fudan University	66	1217
12	Khan, Arif Ali	Nanjing University of Aeronautics and Astronautics	59	574

13	Yu, Yue	National University of Defense Technology	57	655
14	Zhang, He	Nanjing University	56	1561
15	Yin, Gang	National University of Defense Technology	50	943

#### 4.4 ARTIFICIAL INTELLIGENCE AND ROBOTICS

No.	Author	Current Affiliation (Scopus)	2017-2022 Documents by author (Scopus)	Cited by Documents (Scopus)
1	Wang, Feiyue	Chinese Academy of Sciences	526	18743
2	Shen, Dinggang	ShanghaiTech University	521	24221
3	Tao, Dacheng	Chinese University of Hong Kong	480	36373
4	Shao, Ling	Terminus Group/University of Electronic Science and Technology of China	409	16669
5	Nie, Feiping	Tsinghua University	373	11556
6	Gao, Xinbo	Xidian University	364	12448
7	Yang, Jian	Nanjing University of Science and Technology	327	15765
8	Li, Xuelong	Northwestern Polytechnical University	323	28901
9	Tian, Qi	Huawei Technologies Co., Ltd./Shanghai Jiao Tong University	252	6296
10	Li, Guanglin	Chinese Academy of Sciences	225	4098
11	Li, Gongfa	Wuhan University of Science and Technology	207	2015
12	Wang, Jianzhou	Macau University of Science and Technology	150	6898
13	Lin, Haotian	Sun Yat-Sen University	136	2338
14	Yan, Junchi	Shanghai Jiao Tong University	125	2918
15	Samuel, Oluwarotimi Williams	Chinese Academy of Sciences	105	1174

#### 4.5 DATABASE AND INFORMATION TECHNOLOGY

No.	Author	Current Affiliation (Scopus)	2017-2022 Documents by author (Scopus)	Cited by Document s (Scopus)
1	Choo, Kim Kwang Raymond	University of South Australia, Adelaide, Australia/ Fuzhou University	765	16648
2	Jin, Hai	Huazhong University of Science and Technology	524	13506
3	Yu, Philip S.	Tsinghua University	485	49319
4	Lin, Jerry Chun Wei	Qingdao University of Technology	362	2816
5	Li, Keqin	Hunan University	315	8634
6	Chen, Enhong	University of Science and Technology of China,	291	8954
7	Tian, Wang	Beijing Normal University	274	4492
8	Liu, Ximeng	Xidian University	273	3148
9	Zhu, Liehuang	Beijing Institute of Technology	237	3744
10	Fournier-Viger, Philippe	Harbin Institute of Technology/ Shenzhen University	222	2755
11	Xiaolong, Xu	Nanjing University	213	2302
12	Xiong, Hui	Hong Kong University of Science and Technology	212	10798
13	Shen, Jian	Nanjing University of Information Science & Technology	193	4998
14	Wu, Xindong	Ministry of Education China/Chinese Academy of Sciences	191	17297
15	Wang, Lizhen	Yunnan University	94	340

#### 4.6 HUMAN-COMPUTER INTERACTION

No.	Author	Current Affiliation (Scopus)	2017-2022 Documents by author (Scopus)	Cited by Documents (Scopus)
1	Li, Gongfa	Wuhan University of Science and Technology	207	2015
2	Ju, Zhaojie	Chinese Academy of Sciences	172	1710
3	Liu, Yue	Beijing Institute of Technology	136	1796
4	Xue, Chengqi	Southeast University	122	274
5	Rau, Pei-Luen Patrick	Tsinghua University	116	3459
6	Hu, Jun	Jiangnan University	104	1222

7	Liang, Haining	Xi'an Jiaotong-Liverpool University	102	797
8	Weng, Dongdong	Beijing Institute of Technology	86	620
9	Feng, Zhiquani Quan	University of Jinan	81	535
10	Shi, Yuanchun	Tsinghua University	79	2141
11	Tian, Feng	University of Chinese Academy of Sciences	63	785
12	Yu, Chun	Tsinghua University	63	739
13	Fu, Shan	Shanghai Jiao Tong University	60	451
14	Liu, Wei	Beijing Normal University	58	115
15	Yu, Lei	Zhejiang University	57	490

#### 4.7 SECURITY AND INFORMATION ASSURANCE

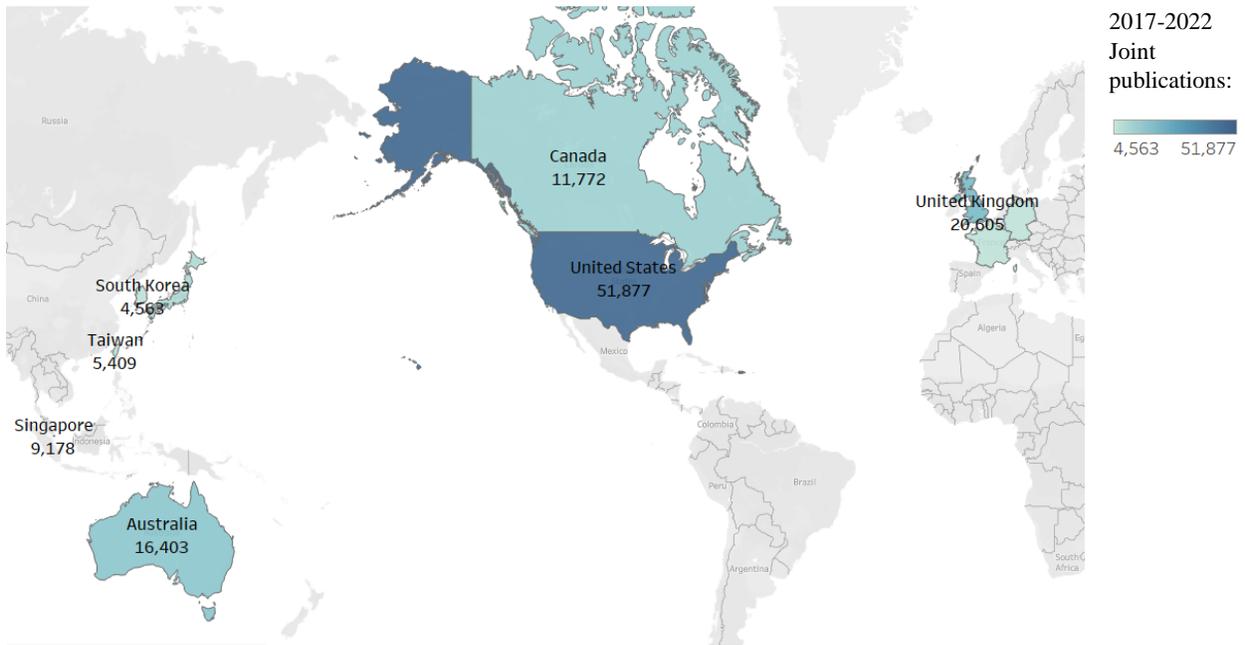

No.	Author	Current Affiliation (Scopus)	2017-2022 Document s by author (Scopus)	Cited by Document s (Scopus)
1	Jin, Hai	Huazhong University of Science and Technology	524	13506
2	Liu, Ximeng	Fuzhou University	273	3148
3	Susilo, Willy	Hubei University of Technology	265	9387
